

# The HWH® SpaceMaker® Dual-Direction Hydraulic Storage-Slide

## *One* Storage Slide For *Both* Storage Sides

HWH has invented a revolutionary new dual-direction hydraulic powered storage compartment slide-out. No more crawling into tight compartments with our dual-direction feature.

## Features and Benefits

- **Dual-direction extension** allows you to access every inch of the bay without crawling in. (Can extend an 8' compartment out 5' from either side of the coach.)
- When extended, the storage compartment **extends out past slide-out rooms**, allowing for easy access.
- Handles **heavy-duty loads** up to 1,000 pounds (evenly loaded).
- **Hydraulic power** eliminates back-work.
- **Smooth extension and retraction.**

*Storage Slide retracted during travel.*

## STRONG, RELIABLE, HYDRAULIC POWER

# Specifications & Features

## HWH® Dual Direction Hydraulic Storage Slide

### Specifications...

<b>WEIGHTS (lbs.)</b>	
Mechanism Assembly	230.00
<b>Gross Weight</b>	<b>230.00</b>
<b>DIMENSIONS (in.)</b>	
Width	36.50
Height	5.53
Length (Retracted)	96.00
<b>Max. Extension (Per Direction)</b>	<b>60.00</b>
<b>LOAD *</b> (lbs.)	1000 (Evenly Distributed)
<b>FORCE of CYLINDER (lbs.)</b>	
Max. Extending	2,100.00
Max. Retracting	2,100.00
<b>PRIMARY APPLICATION</b>	
Storage	Above Floor
