

“Quieter, Faster and Well-Built”

We asked RVers to tell us about their experiences with HWH leveling and slide-out systems. Here's one of the many stories we received.

Dear HWH,

I purchased a 2003 motorhome last October. It has HWH slides and leveling system. My previous RV was a 26-foot fifth wheel. The fifth wheel had a slide from another company.

The HWH slides in my motorhome are quieter and move in and out faster. The mechanism seems to be well-built and sturdy.

The HWH leveling system works very well, too. It's quick, easy to operate, and there's very little motion in the coach while camped.

Thanks for making a great product.

*Joseph T. Fischer
Weston, Texas*

Experienced RVers like Loretta and Joe appreciate the superior quality, precision engineering and exclusive design features of HWH products. They enjoy the dependability, ease of operation and the unequalled after-the-sale service.

Make the decision of a veteran RVer. Be sure that you get the very best: HWH.

Send us your HWH happy story and we'll send you an HWH "Ask for it" cap. You, too, could be featured in a national ad. Send your story to: HWH Happy Stories, PO Box 686, Mishawaka, IN 46546.

Loretta and Joe Fischer, long-time RVers, are impressed with the smooth and easy operation of their HWH levelers and slide outs.

Ask for it.
